PRESS RELEASE

SERVING FRESHNESS AROUND THE GLOBE: MICVAC AND MONDINI EXPAND PARTNERSHIP

Swedish food tech company, Micvac, is revolutionising the ready-meal market. The Micvac system utilises in-pack cooking and pasteurisation in one continuous process housed in a microwave production tunnel. Italian company, G. Mondini, a world leader in tray-sealing technology, develops tray-sealing solutions that deliver fresh and healthy products to consumers. Together, the two companies are expanding their collaboration to develop new ideas and products based on innovative technologies.

Fruitful cooperation

Michael Bogdanski, CEO at Micvac, says *“We are always looking for new ways of creating benefits for our customers. Our collaboration with Mondini not only ensures smooth integration of all current Micvac and Mondini systems, but also means that together we can develop ideas*

that don't exist today.” The two companies will work in close partnership to focus on unique design, high-performing systems and future-oriented levels of sustainability.

Paolo Mondini of G. Mondini adds *“We are passionate about providing consumers with meals that are healthier, tastier and fresher. In this process, our customers can rely on our dedication to solve any problem that arises now or in the future.”*

About Micvac

Micvac is a food tech company that provides fresh ideas for the production and packaging of chilled ready meals. The company was founded in 2000 and is headquartered in Mölndal, Sweden. Its innovative system for ready meals is now available around the world. Apart from the company's core markets in Sweden, Norway and Finland, Micvac also operates in for example Brasil, Hungary, Russia, Japan, South Africa and Australia. The company continues to grow and is expanding globally.

About Mondini

G. Mondini SpA is an innovative and highly efficient producer of packaging solutions to all areas of the food sector. They have been successfully designing tray sealing solutions for over 45 years. Their focus is on supporting their customers from start to finish to satisfy their requirements. Their TRAVE range of tray sealers are industry leaders. Combined with the innovative patented PLATFORM technology it gives the possibility to operate different packaging technologies, formats and materials through simple tool change. TRAVE's unique hygienic design, quality of construction and ease of operation achieves an unrivalled flexibility and performance without compromise.
